Remit by Money Order on Hightstown, N. J., Registered Letter, Draft, or Express Money Order

Directions for Ordering.—Write your name and address plainly, never omitting to give Post Office address, County and State. No matter how often you write follow the above directions. Always state distinctly the size and grade of stock ordered, as per the grades given in this Catalogue. We cannot change the grades from those given. Be sure to give directions how to ship, whether by Mail, Express or Freight. When these conditions are not complied with, we shall use our own judgment and ship the way we think best. Keep a correct copy of the order so that when the stock arrives you will know exactly whether or not you get that which you have ordered.

Prices in this Catalogue do away with all previous quotations. The prices are for the quantities named, but, fifty and five hundred will be supplied at hundred and thousand rates, respectively. In ordering small fruits, single plants of a variety cannot be supplied at ten rates. Payments invariably in advance. Goods sent by express C. O. D., only when one-half of the amount is sent with the order.

Packing.—All goods are packed free. Notwithstanding this fact, we use the utmost care and pack according to the distance and to our customer’s best interest. Everything is labelled.

Shipping.—We deliver all goods free at Freight and Express office at Hightstown, after that they are out of our control and we are not responsible for them. State plainly to what points goods should be sent.

Claims.—All claims must be made immediately upon receipt of goods, at which time they will be carefully considered and adjusted.

Replacements.—With the kinds of stock we send out there is none necessary unless the soil or the weather or transportation company is to blame and you can not expect us to make good these kind of losses. The man who agrees to replace such losses either does not or charges you in first price many times what replacement by us would cost.

Shipping Season.—Our packing season commences in the Fall at 20th of October, and lasts as long as safe to ship, and in the Spring about March 1st, and continues until about the 15th of May.

Plants and Trees by Mail.—We make a specialty of filling Mail orders, and we call your attention to the prices given in this Catalogue on goods sent by Mail, postpaid, to any part of the country. Positively we cannot send any stock by Mail unless it is quoted on last cover page

Acknowledging Orders.—We acknowledge all orders when received, and if you do not hear from us after a reasonable length of time, please duplicate your order, stating how much money you sent, and how it was sent, and then, being sure to sign your name, giving Post Office, County and State every time you write.

Note.—All quotations are for immediate acceptance, subject to stock being unsold. No liability to attach to us where frost, drought or other casualties beyond our control prevent delivery of stock that may be contracted for.
PEACHES

Again the Peach orchards have proven their money making value.

On well drained ground that also has a good air circulation with moderate fertility and good care there is nothing that will give any better returns as quickly. In these days when labor is so scarce and high priced the average farmer must grow those things that take the least work and distribute it over the longest period.

We have found that fruit trees and especially peaches give a larger return for the same average than anything else for an equal expenditure of time and money.

Our list of varieties includes those that have proven most successful over a wide section.

The trees that we offer were grown from Natural North Carolina Seed on ground that has not been used for the purpose for twenty years or more and budded from stock that was absolutely true to name and free from all disease.

These are all one year old Buds and two year roots.

The list of varieties which follows is arranged in order of ripenings as nearly as possible.

The letters after each variety denotes the color of the flesh. (Y) is yellow, (W) is white and (R) is white with more or less red or pink mixed through the flesh.

Varieties not otherwise described are freestones.

Maules Early. (R)—Ripens two or three days after Mayflower. In color it is brighter, and its quality is very much better than any other peach ripening within ten days. It begins to bear the second year after planting and we have never seen it miss a crop. It ships well and rots less than any early peach we have ever grown. On three year old trees they bore a crop that was the prettiest sight we have ever seen on peach trees. Half cling.

Greensboro. (W) — Medium size, oval, creamy white, with rich red blush on sunny side, almost freestone.

Carman. (R)—This is the first peach of any value for market after Maules Early. It ripens at about the same time as Greensboro and Early Rivers, both which are too tender and likely to rot to be reliable. Carman is very hardy in both tree and bud. It is a regular and heavy cropper. Fruit is almost round, large to very large, of a creamy white color covered on one side with a deep rich blush. Skin tough, flesh tender, fine flavor and juicy. It is a splendid shipper and one of the most profitable peaches. Clings slightly.

Miss Lolo. (R)—Spelled by some as “Lola.” This variety was secured by us from Texas under above spelling in 1897. We have always considered it our very best peach for profit and for several years disposed of our entire stock of it to personal friends who knew it. Large size with satin skin with bright red cheek; flesh white; quality best of the very early varieties and more profitable.

Hiley (Early Belle.) (R)—Seedling of Belle of Georgia; exceeds its parent in size, color and beauty; ripens earlier; a large, rich, creamy white peach, with rich blush on sunny side; fine quality; good shipper. Every commercial orchard should have a good proportion of this variety.

Champion. (R)—One of the largest if not the very largest peach ever grown. Ripens just after Miss Lolo and with Hiley. Its season of ripening and its productiveness makes it a valuable variety. Color is creamy white with a red cheek, flesh is white with a light yellowish tint and of the very finest quality.

Niagara. (Y)—One of the best yellow varieties. On two year old trees we had a fair crop and three year trees bore a load of fine, high colored peaches. In quality it is equal to the best being sweet and juicy. It is almost entirely covered with a rich red. Ripens before Elberta and is hardy in tree and bud.
Belle of Georgia. (R)—The Elberta furnished a new type of early, regular and heavy bearing yellow peaches which has never been equalled for shipping and profit. The Belle of Georgia is just as distinctive in the white varieties. It is of large size, uniform in shape and very showy. Quality is good to excellent. It comes into bearing young and is very prolific and picks over an extended period, finishing up just as Elberta begins.

Early Elberta. (Y)—(Gold Finch)—A more handsome peach than the Elberta. The yellow on shaded side is very bright and clean appearing. Ripens a few days ahead of Elberta and in most characteristics similar to that variety. Hardier in bloom.

J. H. Hale. (Y)—The best shipping variety ever introduced, while it completes its season with Elberta it is perfectly colored a full week before that variety, at which time most growers pick and market half the immense crop allowing the balance to mature. They are larger than Elberta and of better quality. The flesh is a beautiful clear golden yellow and the skin is a bright yellow almost entirely overspread with beautiful red. Experts from many sections think it will equal and possibly surpass Elberta. With us Early Elberta is the only variety rivalling it in beauty.

Elberta. (Y)—Very large, skin golden yellow and where exposed to the sun, faintly striped with red; flesh yellow, very fine grain, juicy rich, sweet and splendidly flavored; tree very prolific and presents a handsome appearance and a luxuriant growth. It is a perfect freestone and one of the most successful market varieties. Does well everywhere.

Foxes Seedling. (R)—A very valuable Peach, ripening at a time that makes it desirable aside from its large size; fine quality, good shipping quality and market value; white flesh, freestone, beautiful red cheek.

Late Elberta. (Y)—A large handsome highly colored yellow peach very similar in appearance to Elberta but ripens three weeks later.

Iron Mountain. (W)—Size enormous, oblong or egg shape, color pure white, sometimes having slight blush. It is a perfect freestone and is as good quality as any white peach we have grown. Season, September 20th to October 10th, according to season and soil. The most regular bearer and by far the most profitable peach we have ever grown.

SUMMER APPLES

Gravenstein.—Large, bright yellow, roundish, splashed with red and orange.

Williams Early.—Medium to large; oblong, red, a handsome dessert apple. A very profitable market variety. (In 3 to 4 ft., 1 year only.)

Yellow Transparent.—A large, widely planted and popular transparent, waxy-yellow apple that is noted for its hardness. An upright, vigorous tree, and good, crisp, sub-acid, fragrant fruit. It is one of the first apples to ripen early in the summer when the markets are eager for fruit. They bring fancy prices.

EARLY AUTUMN APPLES

Duchess of Oldenburg.—A large, beautiful Russian apple; roundish; streaked red and yellow, tender, juicy and pleasant.

English Codling.—Very large, yellow with red cheek, handsome, sub-acid, good, productive, profitable; extra fine for cooking and market. (1 year olds only.)

Wealthy.—Fruit medium, roundish, skin smooth, oily, mostly covered with dark red; flesh white, fine, juicy, vinous, sub-acid, very good. Tree very hardy, a free grower and productive.

LATE FALL AND WINTER APPLES

Baldwin.—Large, roundish, dark red, fine flavor, sub-acid, crisp and juicy.

Grimes Golden.—Medium size, yellow, highest quality, rich, tender. Our most profitable late fall apple. It bears young and regularly. Its large crop of fine apples always commands good prices and the demand far exceeds the supply.

Mammoth Black Twig. (Paragon)—Fruit large, roundish, somewhat flattened, color dark red, slightly streaked, flesh firm, yellow, crisp, aromatic, sub-acid and juicy. It is a very late keeper, rich and of excellent quality.

McIntosh Red.—Medium size, nearly covered with dark red flesh; white, fine, very tender, juicy and refreshing. A good annual bearer of fair, handsome fruit. Resembles the Fameuse. (1 year olds only)

Rome Beauty.—Large, yellow, shaded with bright red, a very profitable variety. One of the surest croppers and best sellers in all markets.

Grimes Golden

Smokehouse.—Large, shaded with bright red, firm, juicy and crisp, fine quality.

Stark.—Large, striped with red, flesh yellowish and moderately juicy. A splendid keeper and heavy cropper. Very profitable and satisfactory.
Delicious.—A large apple of most pleasing color, being a rich red with just enough yellow to be pleasing to the eye. The quality is of the best, being juicy, fine grained and truly Delicious.

Buds were taken from bearing trees, known to be true to name.

It is large, a brilliant red nearly or entirely covers the yellow background, the most attractive coloring of any apple we grow. In quality it is one of the very best. The tree is vigorous, hardy and productive.

York Imperial. (Johnson's Fine Winter.)—Medium to large, yellow, shaded red, firm, juicy, sub-acid. An excellent shipping apple.

CRAB APPLES

Prices—4 to 6 ft., 80¢ each; $7.50 per 10.
Florence.—Medium, oblong, striped red and yellow, very beautiful, one of the best crabs.
Lady Elgin.—Similar in size and appearance to the Lady Apple; flesh juicy and good, tender. An early and prolific bearer.
Martha.—The ground is a bright yellow, nearly overspread with bright red.
Transcenda.t.—Large, roundish, rich crimson, white bloom, flesh crisp.
Whitney's No. 20.—Large, almost red, striped; flesh yellowish white, very juicy, sub-acid, excellent. Tree vigorous.

CHERRIES

HEARTS AND BIGARREAUZ, OR SWEET CHERRIES

Prices—2 year, $1.10 each; $10.00 per 10.
Black Tartarian.—An old and popular variety; large, purplish black, juicy, rich, excellent; early.
Gov. Wood.—Large, roundish, depressed at stem; skin light yellow, shaded and marbled with bright red; flesh tender, juicy, sweet and delicious; early.
Mercer.—The fruit buds are harder than any other variety of heart cherries, thus insuring annual crops. Fruit, very large often measuring three-quarters of an inch in diameter; color, dark glossy red, almost black when fully ripe, having the appearance of being varnished; quality unexcelled for table use or canning; ripens early.
Yellow Spanish.—Large, flesh very firm, juicy and delicious; pale yellow with a bright red cheek in the sun.
Napoleon.—Very large, pale yellow or red; firm, juicy, and sweet. A vigorous grower and very productive; one of the best.
Schmidt's Bigarreau.—A most promising Cherry. Fruit of immense size, of a rich, deep black; flesh dark, tender, very juicy, with a fine flavor. Bear abundantly, and makes a most excellent dish for the table.

DUKES AND MORELOS, OR SOUR CHERRIES

Prices—2 year, 4 to 6 ft.—$1.10 each; $10.00 per 10; $80.00 per 100.
Dyehouse.—Resembles both the Duke and Morrello in wood and fruit; early and sure bearer; ripens before Early Richmond; better and more productive.
Early Richmond—Medium size; dark red; melting, juicy, sprightly, acid flavor. This is one of the most valuable and popular of the acid cherries, and is unsurpassed for cooking purposes, and is exceedingly productive.
Large Montmorency—A large, rich, acid cherry, larger than Early Richmond, and fully ten days later.
May Duke.—Large, dark red, juicy and rich; an old, excellent variety. Productive; early.
PEARS

Prices on Pears—5 to 6 ft. $1.00 each; $9.00 per 10.

Bartlett.—Large, yellow, flesh white, exceedingly fine grained and buttery.

Beurre d’Anjou.—Large greenish, sprinkled with russet, flesh melting, with a high, rich, vinous, excellent flavor, productive.

Clapps Favorite.—Very large, yellowish green to full yellow, marbled with dull red, vinous, melting and rich.

Garber.—A fall-bearing fruit, resembling the Keiffer, but ripens from two to three weeks earlier. Tree is free from blight and immensely productive. It seems to be a good variety to plant with Keiffer for pollinating the blooms.

Keiffer.—Fruit large to very large, affecting ovoid or egg shaped; skin yellow, with a bright vermilion cheek; flesh brittle, very juicy, with a marked musky aroma. Tree very vigorous and very prolific. As a fall pear there is no variety as yet disseminated which has given such profitable returns.

Seckel.—Small, rich, yellowish, one of the best and most highly flavored pears known. Best of all pears.

Sheldon.—Large, russet, juicy, and excellent, one of the best varieties, a fine grower and productive.

Worden-Seckel.—A seedling of the Seckel. Equal in quality to its famous parent, which it resembles much in flavor, while in size, color, form and appearance, it is decidedly superior.

PLUMS

EUROPEAN PLUMS

Prices—2 year, 4 to 6 feet, extra fine, $1.00 each; $9.00 per 10.

German Prune.—Fruit oval in shape, nearly two inches long, of good quality for the table and much esteemed for drying and preserving, hangs long on the tree and is firm, sweet and pleasant.

Green Gage.—Small, considered the standard of excellence. Mid-season.

Reine Claude.—A large, fine variety, skin greenish yellow, covered with a thick bloom, flesh yellow, juicy, melting, with a rich sugary, excellent flavor.

Bradshaw.—Very large and early, dark violet red, juicy and of good quality, productive.

Lombard.—Oval; violet-red; flesh yellow, juicy and pleasant; a great bearer.

JAPAN PLUMS

Prices—2 year extra large, $1.00 each; $9.00 per 10.

Abundance.—Beautiful lemon yellow, nearly overspread with bright cherry, oblong, flesh orange yellow, melting, rich and highly perfumed. Abundant and unusual bearer.

Burbank.—The fruit is large, nearly globular, cherry red, flesh a deep yellow, with a peculiar and agreeable flavor.

QUINCES

The Quince requires a deep, rich, moist soil, but if well manured and mulched, they will succeed admirably upon dry ground. The tree is hardy and compact in growth, requiring but little space, productive and comes early into market. Prune off all dead or surplus branches and thin out the fruit bearing branches freely.

Prices.—2 year, extra nice, $1.00 each; $9.00 per 10.

Bourgeat.—Strong grower, prolific, hardy. Fruit large, smooth and fine grained.

Champion.—Fruit very large, fair and handsome. Tree very productive, surpassing any other in this respect; bears abundantly while young, flesh cooks as tender as the apple, and without hard spots or cores, flavor delicate, imparting an excellent quince taste and odor to any fruit with which it is cooked.

Orange.—Large, roundish, bright golden yellow, cooks tender, and is of excellent flavor. Valuable for preserves or flavoring, very productive, the most popular and extensively cultivated of the old varieties.

Rae’s Mammoth.—A superb fruit; much larger than the Orange, but of the same form and color. Tree healthy; very thrifty grower. Productive.

Meeches Prolific.—A vigorous grower and immensely productive, frequently bearing fruit when but two years of age, increasing in quantity yearly to such an extent as to require vigorous thinning to prevent injury to the trees from overbearing. The fruit is large, lively orange color, of great beauty and delightful fragrance; its cooking qualities are unsurpassed.
VILLAGE NURSERIES, HIGHTSTOWN, N. J

STRAWBERRIES
EVERBEARING

Superb. (Perfect Bloom.)—Considered the best of all fall-bearing sorts. Berry glossy, very attractive and of the finest flavor. Berry is very large and firm. With a good bed of this variety it is entirely possible to have strawberries every day from the time the first ripe berries come in the spring until they are cut off by the first heavy frost in the fall and you get a crop the same season you plant.

Prices.—$1.00 per 25; $2.50 per 100.

GENERAL LIST OF STRAWBERRIES

Prices. (For Spring Delivery Only.)—60c per 25; $1.20 per 100; $10.00 per 1000.

Gandy. (Perfect Bloom.)—The berries are large, very uniform, of bright crimson color, handsome and showy, firm and of good quality. Requires good soil and culture.

Glen Mary. (Perfect Bloom.)—One of the most popular sorts, it has become a standard. Foliage is good, berries are large, dark rich red with prominent bright yellow seeds. They are firm and of fine quality, being rich and juicy and a very pleasing flavor. For the fancy market it is only excelled by the Joe.

Joe. (Perfect Bloom)—Renamed Big Joe and Joe Johnson and called a new variety, and while Big Joe is really a fitting name because of its size, Joe Johnson is not as it was really Joe Black. It is another tribute to this fine variety to consider it worthy of two reintroductions fifteen years after its first appearance.

Season medium to late. Plant is unusually vigorous and long lived, and foliage is clean and healthy. Productive, and carries its fruit well.

Fruit large to very large and continues large to the end of the season firm; in form it is oblong conical and very uniform in size; red with red flesh; quality good.

Joe, or Joe Black, or Big Joe
(Incorrectly renamed Joe Johnson)

Sample. (Imperfect Bloom.)—The plant is a strong, vigorous grower, very productive, texture firm, making an excellent shipper. The berries color all over at once, and look very pretty in the package. Large size, mid-season, fine quality, conical shape and regular in form; one of the best for the market.

Saunders. (Perfect Bloom.)—An excellent variety and like Joe succeeds better than any sorts on light sandy soils. Berries are large and of dark glossy red very firm and of high quality. Plants strong and thrifty with good foliage and good croppers.

Senator Dunlap. (Perfect Bloom.)—Season early to mid-season. The plant is all that can be desired in a strawberry, vigorous, healthy, productive, almost rust proof and apparently well night drought proof. The fruit is of good size, regular and attractive in form, deep red in color without and within, firm in substance and excellent in quality.

Stevens Late Champion. (Perfect Bloom.)—Plant a strong, vigorous grower, flavor perfect. Berry, size and shape of Sharpless. Color, bright red; flesh firm and of the best quality. Productive.

Success. (Perfect Bloom.)—Early, large, firm, bright crimson. It is the best early variety that we have ever fruited, being very early and prolific. The plant is exceptionally vigorous and strong.

Wm. Belt. (Perfect Bloom.)—Next to Joe we consider this the best flavored of all strawberries. Like Joe it has increased in favor with years and while its foliage has not always been the best, there seems to be a continued improvement each year. If you desire fancy berries for home use or market, this variety should be included in your plantings.
RASPBERRIES

Cuthbert. (Red).—A strong grower and productive; very large, bright red; fruit firm, of very fine quality, season medium to very late; a good one for market or home use. Price.—75c per 10; $3.00 per 100; $25.00 per 1000.

Welch.—The plant is exceptionally vigorous, holding its foliage until the wood is fully ripened and matured; this feature insures hardiness. Berry is large. Bright and firm.

Price.—75c per 10; $2.50 per 100.

St. Regis.—It has been called everbearing by some but it hardly bears that out, although it comes nearer it than any other we ever saw. Its principal value lies in its first crop which is equal to any and better than many.

The other crop is on the young wood and runs for quite a time and the berries are large and of fine quality. It bears the first season and these berries sell at fancy prices.

It is worth the prices at which we are offering it as a regular one crop variety.

Prices.—75c per 10; $3.00 per 100; $25.00 per 1000.

Plum Farmer.—Plants are hardy, vigorous and productive; the berries large, good in color and quality. It has already been grown in many localities and reports on its behavior are very favorable. The berries ripen very early and most of the crop is produced in one week. The fruit is very large, thick meated and firm, making a good berry to ship to distant markets. A Blackcap.

Prices.—75c per 10; $3.00 per 100; $25.00 per 100.

BLACKBERRIES

Ward.—The plant is remarkably vigorous and healthy, well branched, yet making strong, erect fruiting canes, enabling them to carry and develop their immense loads of fruit. Foliage dark green, healthy blossom perfect, never showing a sign of doubling. Fruit immense in size, jet black in color, very firm, tender and melting, without core, and of the highest quality. Its unparalleled productiveness and splendid quality make it one of the best blackberries, if not the very best, for market and home garden.

McDonald. (Imperfect Blossom).—Plant every 3rd or 4th row with Dallas.

The earliest of all Blackberries.

The McDonald is three weeks ahead of Eldorado, equaling it in every other particular, it surpasses in quality and size. The berries are very large, longish and uniform in size. In quality it is equal to any variety of any season. The plants are extremely vigorous, bearing immense crops, one man harvested 500 bushels per acre. It stands the dry weather perfectly and holds its foliage well. It will hang on the bushes for several days after ripening. The earliness, size, fine quality command for it higher prices than can be had from others.

Prices.—75c per 10; $3.00 per 100.

Dallas.—Another very early blackberry following McDonald but blooms at same time and therefore is valuable to fertilize that variety. It is very vigorous grower with drooping and thorny vines that produce large crops of big berries of high quality. It has proven to be a good market variety. Price—75c per 10; $3.00 per 100.

Rathbun.—Plant vigorous, and productive, withstands drought well and is perfectly hardy. Berries extra large, jet black, glossy, luscious and melting. Discarding other varieties many growers are content to grow the Rathbun to the exclusion of all others.

GOOSEBERRIES

Downing.—Very popular; large pale green, good quality; bush vigorous, hardy, prolific. The fruit hangs in thick close rows. It bears abundantly, is hardy, requires but little attention, continues for almost a life-time.

Prices.—2 year, 40c each; $3.50 each; 1 year, 25c each; $2.00 per 10.

Houghton.—A medium size American variety; fruit smooth, red, tender and very good; bears abundantly and regular crops. Free from mildew.

Prices.—2 year, 35c each; $3 per 10. 1 year, 25c each; $2 per 10.

Red Jacket.—A true native and one of the finest American Gooseberries, rivaling the largest English varieties in quality and size of berry, and excelling them by far in vigor of growth and freedom from mildew. The plant is of vigorous growth, with bright, clean foliage. It is very hardy and a wonderful cropper. The fruit is large, smooth, of a rich, ruby red and fine quality.

Price.—2 year, 40c each; $3.50 per 100. 1 year, 30c each; $2.50 per 10.

Wilder.—One of the strongest growers, and most productive. Bunch and berries very large, bright, attractive red color. Compared with the celebrated Fays, is equal in size, with longer bunch, better in quality, with much less acidity and fully as prolific. 1 yr., $15.00 per 100.

Boskoop Giant.—To those who desire a black currant we recommend this variety. It is a strong grower and good cropper. The berries are large and ripen early. It is better than other black varieties.

Fays Prolific.—Color, rich red. As compared with the Cherry Currant, Fays Prolific is equal in size, better flavor, with much less acid.

White Grape.—Very large, yellowish white, sweet or very mild acid, excellent quality and valuable for the table; the finest of the white sorts. Very productive.

Cherry.—Large, red; bunch long; of great beauty and excellent quality. One of the oldest and best.

Perfection Currant.—Color, bright red, size very large, clusters exceedingly long, larger and less acid than Fays, has longer stems than that variety and is a strong grower.

Price.—1 year, 35c each; $3.00 per 10.

MULBERRIES

Price.—2 to 4 feet, 50c each.

New American.—Equal to Downing in all respects and a much hardier tree. Vigorous grower, very productive, the best variety of fruit, ripe from middle of June to middle of September.

Downing Everbearing.—Highly ornamental for street or lawn, yielding an abundant supply of very large, black, handsome berries, sweet, rich and excellent.
GRAPES

Grapes by Parcel Post will be sent prepaid if you add 8c each and 50c per 10. One year old vines will bear just as quickly as two year olds.

Brighton.—Berries medium, to large, round, light red to dark crimson in color; flesh tender, sweet, productive. Early.

Prices.—1 year, 25c each; $2.00 per 10. $18.00 per 100; 2 year, 35c each; $3.00 per 10.

Campbell’s Early. (Black)—Bunch large shouldered. Berry large, nearly round, covered with light bloom, blue; adheres strongly to stem; skin does not crack, flesh somewhat pulpy, sweet, with slight aroma, not foxy; quality the same as Concord. It ripens very early; a fine shipping grape. Vine a good grower.

Price—2 year, 35c each; $3 per 10. 1 year, 25c each; $2.00 per 10; $18.00 per 100.

Catawba.—Dark red when fully ripe. Bunches large; berries medium to large, with rich flavor.

Price—1 year, 25c each; $2.00 per 10.

Concord.—A well known, large, purplish black grape, vines remarkably vigorous.

Price—2 year, 35c each; $3 per 10. 1 year, 25c each; $2.00 per 10; $15.00 per 100.

Delaware.—Small, light red, skin thin, very juicy, sweet and sprightly; one of the finest flavored hearty grapes. Price.—1 year, 35c each; $3 per 10.

Elvira.—White. Bunch and berry medium, very compact; vine vigorous, strong, healthy grower and very productive. Price—1 year, 25c each; $2.00 per 10.

Empire State.—Bunches large, shouldered; medium to large, roundish oval, color white; flesh tender, juicy, rich and sweet. Price—1 year, 25c each; $2.00 per 10.

Green Mountain.—Clusters and berry medium, greenish white, thin skin, fine quality, tender, sweet, strong grower, exceedingly hardy. Very early.

Price—1 year, 40c each; $3.50 per 10.

Lutie.—Earliest red grape in the market; vines hardy; a strong grower; bunches solid, berries large; color light chocolate; flavor equal to Delaware; sweet and rich.

Price—1 year, 35c each; $3.00 per 10.

Moores Diamond.—White; bunch large, compact, shouldered; berries large, round, skin thick, firm, flesh tender, juicy, with but little pulp.

Price.—2 year, 35c each; $3.00 per 10. 1 year, 25c each; $2.00 per 10. $18 per 100.

Moores Early.—Very early; bunches large, berry round and large, color black, with a heavy blue bloom; of good quality. Price—1 year, 25c each; $2.00 per 10.

Niagara.—Bunch is very large and compact, sometimes shouldered; berries large; light greenish white; semi-transparent; skin thin, quality good.

Price—1 year, 30c each; $2.50 per 10. $20.00 per 100.

Pocklington.—The fruit is a light golden yellow, juicy and sweet, bunches very large, sometimes shouldered; berries very large. Price—1 year, 25c each; $2.00 per 10.

Salem.—Dark red; bunch large, compact, shouldered; berries large, round; flesh sweet, very tender, with a rich, aromatic flavor. Price—1 year, 25c each; $2.00 per 10.

Worden.—Black; bunch large, sometimes shouldered, compact; berries very large, skin thin. One of the best, if not the best. Price—1 yr., 30c each; $2.50 per 10; 25 for $5.

ASPARAGUS

Prices—$1.50 per 100; $10.00 per 1000.

Barr’s Mammoth.—A very superior variety, both as to size and quality.

Palmetto.—Yields a heavy crop, large and of even and regular size. Best variety for all purposes.
NUTS

English Walnut—The tree is of fine spreading habit, making it available for shade. Every poultry raiser should use it in preference to other trees as it gives the desired shade and at the same time produces a crop that cannot be eaten or damaged by fowls. The trees we offer are northern grown from northern seed.

Prices—Trees twice transplanted. 12 to 18 inches, 60c each; $5.00 per 10.

HARDY INDIANA PECAN SEEDLINGS

These are hardy trees that will stand the cold as well as the apple and will bear thin shell nuts of the very best quality but their size averages less than the budded varieties. They are transplanted stock and will stand moving.

Prices—4 ft., transplanted. 50c each; $4.00 per 10; $25 per 100.

ORNAMENTAL TREES

American White Ash.—A native tree of quick growth with massive trunks and broad spreading limbs, valuable for shade and street planting.

Price.—6 to 7 ft., 75c each; $6.00 per 10.

European Mountain Ash.—A fine hardy tree with a dense head of very attractive compound of leaves. Bears white flowers in May and is covered with showy clusters of red berries from July to frost.

Price.—6 to 7 ft., 75c.

Catalpa Bungei. (Umbrella Tree, Japan.)—One of the most attractive of trees which when better known will certainly be in great demand for lawns and all ornamental grounds. It forms a perfect half-globular or umbrella head with foliage of a deep green color with great precision and making a beautiful roof of leaves upon which the light plays with delightful effect, making one of the finest trees that can be planted on a lawn or for a shade tree.

Price.—2 year heads and straight stems, $2.50 each.

Prices.—10 to 12 ft. $1.50 each; $12 per 10.

Norway Maple.—A large handsome tree of spreading rounded form with broad deep green shining foliage. Its compact habit and strong, vigorous growth render it one of the most desirable species for the street, park or garden.

Prices.—8 to 9 ft. $1.25 each; $10 per 10. 9 to 10 ft. $1.50 each; $12.50 per 10. 10 to 12 ft. $2.50 each; $20 per 10. 12 to 14 ft. $3.00 each; $25.00 per 10.

HARDY SHRUBS

Crataegus Oxycantha, (English Hawthorne.)—Sweet single white flowers and pretty foliage. 18 to 30 inches. Price.—25c each; $2.00 per 10.

Deutzia Gracilis.—Graceful white flowering round compact bush. 3 year clumps.

Price.—25c each.

Deutzia, Pride of Rochester.—Profuse bloomer, double white.

Price.—4 to 5 ft., 40c each; $3.50 per 10.

Deutzia Lemoinei.—Rather low growing shrub with slender arching branches, white flowers in great profusion and large clusters.

Price.—18 to 24 in. 30c each; $2.50 per 10.

Hydrangea Paniculata Grandiflora.—A fine shrub growing from 6 to 8 feet high but can be kept pruned to a low bush. Very showy from July to September with white flowers changing late in season to tints of pink and red. The most popular and finest of all the well known shrubs.

Price.—Extra fine transplanted with a mass of roots. 2 ft. 45c each; $4 per 10.

Tree form good heads, 2 foot stem, 80c each.
Rhodotyphus Kerrioides, (White Kerria).—Very bushy, with snow white flowers in May and later followed by a crop of shiny black berries. 2 year transplanted.

Price.—12 to 18 in. 25c each; $2.00 per 10.

Syringa Vulgaris Alba, (Common White Lilac.)—White, 2 year, transplanted.

Price—12 to 18 in. 25c; $2.00 per 10.

Viburnum Plicatum, (Japan Snowball).—Has a very rich, deep green foliage, of handsome form and beautiful globular heads of pure white flowers, quite distinct from those of the common sort. One of the best ornamental shrubs.

Price—2 feet, 40c each; $3.50 per 10.

Weigela Rosa.—Rose colored flowers, 2 year transplanted.

Weigela Eva Rathke.—New, free bloomer, reddish purple.

Weigela Candida—Pure white.

Prices of all Weigela—3 ft. 30c each; $2.50 per 10.

Hydrangea Arborescens Grandiflora Alba.—The blooms are of the very largest size, of pure snow-white color, and the foliage is finely finished.

Price—2 ft. 25c each; $2.00 per 10.

Berberis Thunbergi.—One of the most effective plants in autumn, after most other deciduous shrubs are bare. Its small oval leaves then assume superb crimson hues, and the slender branches droop beneath their load of bright red berries, which hang on until late in winter.

Prices—15 to 18 in. 30c each; $2.50 per 10; $20 per 100.

ROSES

Roses, to us are the most desirable of all flowers. They repay you handsomely for extra care and attention but will do well in any sunny, well drained place that is made rich enough and kept cultivated.

The plants that we offer are all on their own roots and two year old dormant stock that, with proper handling, will grow and produce bloom the first year.

We offer only such varieties as are hardy enough to withstand your winters provided you give them the moderate protection that any everblooming rose requires.

DIRECTIONS FOR PLANTING AND CARE OF ROSES

The soil should be made rich if possible by using one part well rotted cow manure to three parts soil. The ground should be dug to the depth of two feet and if there is a clay subsoil dig even deeper and put in from 4 to 6 inches of sand, or coal ashes. Pack the soil very firmly and work up the top to the depth of three inches after planting the roses.

PLANTING.—Never put chicken nor stable manure nor fertilizer nor bone-dust near the roots. When the plants reach you the ground should be ready for planting at once. The sooner they are planted the better they will do for you. When ready to set take them from the package and soak top and roots in water that is slightly warm for one hour or more, then prepare a rather stiff puddle of fresh cow-manure or clay and dip the roots when the hole is ready.

The hole should be deep enough and large enough to allow the roots to be spread out full length and for the plant to be at least one inch deeper than it was in the nursery.

Bank up the dirt around the plant for two or three inches and cut the top back to within six inches of the ground. If it is windy or very hot and dry cover with peach baskets for a week or ten days. This keeps the tops from drying up before the roots get a start.

DISTANCE TO PLANT.—Hybrid Teas 18 to 20 inches apart. Hybrid Perpetuals and half climbers two feet.

CARE.—Cultivate the soil at least once each week. The best spray is Bordeaux-Arsenate of Lead mixture, eight ounces to five gallons of water. It cost 30c per pound.

WINTER PROTECTION AND SPRING PRUNING.—The best winter protection is to bank the roses for 8 to 10 inches and throw evergreen boughs or straw and brush over the tops.

In early April after danger of hard freezing is over turn your dirt bank and cut back the large stems to 8 to 10 inches and take out all small weak branches.

VARIETIES.—We offer the best Hybrid Perpetuals which bloom their great crop in June and only scattering blooms afterward, their beauty is in the great masses of buds and blooms. Hybrid Teas and Hardy Teas that are almost constant bloomers and are particularly valuable for cutting, being beautiful in bud and exceedingly fragrant; and Climbers for trellis, fence and wall coverings.

We have arranged the list of varieties according to colors and attached our prices. The descriptions are given in the alphabetically arranged list.

Our Roses are all on their own roots and are extra strong two year old dormant stock.

Betty. — (H. T.) The flowers are deliciously fragrant of very large size, full and beautiful. The exquisite color being copper, overspread with a beauteous texture, richly supported by a strong, vigorous growing bush.

Climbing Étoile de France. (H. T.) —Brilliant red-crimson velvet, center to vivid cerise; identical with Étoile de France except a very much stronger grower.

Climbing Kaiserin.—(Mrs. Robert Peary.) (H. T.)—Ivory-white, identical with the parent, Kaiserin Augusta Victoria, except a very much stronger grower.

Climbing Killarney. (H. T.)—Brilliant sparkling pink with large, pointed buds, broad wax-like petals with silvery edges and enormous semi-full flowers of exceeding beauty. One of the very finest forcers. Very much stronger grower than Killarney.

Climbing Sunburst. (H. T.) —Orange-copper or golden-orange and golden-yellow, all intense shades, giving an extremely brilliant effect. A giant Rose, long stems, long, pointed buds, vigorous, firm and healthy, with splendid keeping qualities. Very much stronger grower than Sunburst.

Duchess of Wellington. (H. T.)—Intense saffron-yellow, flushed crimson, changing to deep coppery-yellow. Long pointed buds. Considered by many the best yellow H. T.

Edward Mawley. (H. T.)—Velvet-crimson of a deep, rich color on huge petals beautifully arranged to form faultless blossoms of wonderful depth, sweetly perfumed and never off color in the hottest weather. Growth handsome, uniform and perfect, holding each bloom rigidly upright. An ideal, free and perpetual flowering garden rose promising success as a forcer.

Étoile de France. (H. T.)—A brilliant shade of red-crimson velvet, corresponding to vivid cerise; large flowers on long, stiff stems; remarkably vigorous, free-blooming and hardy. Its chief value lies in its striking beauty as an outdoor bloomer and bedder with bronzy-green foliage.

Frau Karl Druschki. (H. P.)—The White American Beauty. A vigorous grower everywhere, with bright green leaves, delicately veined; splendid long buds and magnificent snow-white blossoms with large, saucer-shaped petals.

Genl. Jacqueminot. (H. P.)—A celebrated and much sought after variety, both for planting out and pot forcing; shapely buds and handsome blooms of bright, shining crimson, rich, brilliant, velvety and fragrant. Everybody knows and wants the "Jack" for its all round good qualities.

Genl. McArthur. (H. T.)—Bright, scarlet, large, free flowering, ever-blooming habit and very perpetual. One of the finest and most fragrant roses grown. The most beautiful shade of any garden or forcing rose offered, retaining its brilliant color when dropped, flowers of superb form, larger than Liberty or Meteor; free from mildew.

Genus. (H. T.)—Flowers are large and full. Deep orange-yellow and heavily veined with reddish copper, the most charming and gorgeous coloring which has yet been introduced.

Killarney Brilliant. (H. T.)—Newest member of its family. Color varying from crimson-pink in winter to a bright, true pink in hot weather, brilliant throughout the year. As free a producer and a trifle larger than the former grower than the pure pink, nearly double the petalage. Same growth and style as Killarney, and like it varies considerable in color. Shady weather it is almost deep crimson.

Killarney White. —A sport from Killarney. It is pure white in color, long in bud, of fine form.

Kaiserin Augusta Victoria. (H. T.)—Creamy-white flowers of immense substance, smooth and nicely arranged. Splendidly large, with magnificent full, double blooms, making the choicest cut flowers. A most sturdy grower, blooming steadily from early spring until late frost.

La Detroit. (H. T.)—Shell-pink, shading to soft-rose. Large, full, upright and strong.

Madame Abel Chatenay. (H. T.)—A good grower and perpetual bloomer; large and beautiful in bud and bloom; deep recurved petals of rose-pink, with a tinge of salmon. Bright, pretty and popular.

Radiance Pink. —(H. T.)—Brilliant rosy-carmine, shaded with rich opaline-pink tints in the open flower. Very large, full and graceful form, with cupped petals. A constant and fragrant forcer, producing strong, upright canes and an excellent keeper in summer.

Radiance Red. (H. T.)—A glowing crimson sport of Radiance with all the magnificent qualities of the parent; the enormous globular flowers on heavy canes are a sight to be long remembered. This variety will be in very heavy demand.

Sunburst. (H. T.)—Deep cadmium-yellow with orange-yellow center; large, full and beautiful form.Orange-copper or golden-orange and golden-yellow, all intense shades, giving an extremely brilliant effect. A giant rose, long stems, long pointed buds, vigorous, free and healthy, with splendid keeping qualities.

Tipperary. (H. T.)—Clear yellow, slender and pointed buds opening to a full rosette with satiny surface; long stiff stems in profusion, each tipped with a flower admirably adapted for corsage and fancy table decoration. An Irish seedling of Mrs. Aaron Ward.

White Maman Cochet. (T.)—Very large and beautifully formed in bud and bloom; pure wax-yellow under glass, taking on a faint pink flush out of doors with no intensity. Vigorous and produces abundantly for cutting.

RAMBLERS OR TRUE CLIMBING ROSES

Price—50c each; $1.20 for 3; $3.00 per 10.

Crimson Rambler. —This is too well known to require much of a description. Very free flowering and a strong grower bearing immense clusters of crimson flowers which are bright and vivid in color.

Everblooming Crimson Rambler. (Flower of Fairfileld.)—This is almost identical in every respect to the Crimson Rambler with the exception that it is an everblooming variety. The flowers are more brilliant. The growth is vigorous. It blooms continuously throughout the season.

Dorothy Rambler. —This climber resembles the Crimson Rambler. It is of beautiful shell pink, full and double. For fences, wall and low trellis there is nothing equal to this rose.

Excelsa. (Red Dorothy Perkins.)—Crimson scarlet, double flowers in brilliant clusters set in glossy, shiny foliage; an intensified crimson rambler which is a truer orange than full and delicate form; no canary color, but pure and beautiful, blooming profusely everywhere.

Dr. Wm. Van Fleet. —A new climber of exceptional merit. A splendid robust climber of most beautiful form. Immune from mildew. A profuse bloomer, beginning with the Hybrid Teas and continuing to give fresh bloom every day for two or three weeks. No description can tell of the delightful texture and color of this rose; the flowers are large and full, double, and delicious perfumes nor can any picture do justice to its beautiful form. Bud, most beautifully formed; delicate rosy flesh, shading in the center to a pretty rose pink. Flowers produced on splendid long stems.

LIME—SULPHUR, Concentrated Solution

As a spray material it is acknowledged by all to be the cheapest and best spray on the market.

SUMMER SPRAY FOR APPLES

As a summer spray for Apples in connection with either Nicotine or Arsenate of Lead it is unquestionably the best fungicide yet used, using one part to 40 parts water.

DORMANT SPRAYING

Use one part Lime-Sulphate to nine (9) parts water.

GUARANTEE AND CONDITIONS OF SALE

We have no connection whatever with any other nursery, and our responsibility extends only to persons purchasing direct from us. We also disclaim any responsibility for failure arising from defective planting, or from subsequent faulty treatment of cultivation, and we are not in any respect responsible for any loss or damage arising from any failure therefrom.

While we exercise the greatest care to have all trees, shrubs and plants sold by us true to name and free from disease, and hold ourselves prepared to replace, on proper proof, all that may prove to be otherwise, we do not give any warranty, expressed or implied, with respect to them; and all such goods are sold upon the express condition and understanding that in case any of them prove to be untrue to name, unhealthy or otherwise defective, we shall not be held responsible for a greater amount than the original price of the goods.

**NOTICE—**All claims for defective stock must be made at once upon receipt of same.
